Work Experience

WordPress Developer & Jr. Laravel Developer

Init - Monterrey, NL

February 2021 to Present

- Create website layout/user interface by using standard HTML/CSS practices
- Integrate data from various back-end services and databases
- Gather and refine specifications and requirements based on technical needs
- Create and maintain software documentation
- Responsible for maintaining, expanding, and scaling our site
- Stay plugged into emerging technologies/industry trends and apply them into operations and activities
- Cooperate with web designers to match visual design intent
- Developing web platforms using Laravel/PHP
- Third party API integrations
- Writing back-end code and building efficient PHP modules.
- Developing back-end portals with an optimized database.
- Troubleshooting application and code issues.

Web App Developer & Project Management

Comida Haysiana - Montemorelos, N. L.

January 2019 to January 2021

Developer of local food business e-commerce website using WordPress, woo commerce. I led a team of 2 other business partners to plan and execute events like giveaways, giving free food to the homeless, advertising, branding. I also oversaw and assessed existing processes and workflows. Optimized the productivity by implementing and testing new procedures. Assembled reports to document process status and changes. And also tracked metrics to discover areas for improvement and monitor upgrades.

Computer Science Tutor

Tutor.com - Montemorelos, N. L.

August 2020 to December 2020

I worked as an online tutor, teaching computer science, more precisely front end (Html, css, javascript, jquery, server-side css, git, responsive designs, browser developer tools, etc..)

Front End Developer

Neomediix - Monterrey, N. L.

May 2019 to October 2019

I worked as in intern at the company.

Developed various sites for various companies using Wordpress, woo commerce, shopify, laravel, css, sass, php, etc...
